Ar. Aznida Azlan is currently a Senior Lecturer at the Department of Architecture, FRSB, UPM after joining UPM in March 2013. She graduated from the University of Malaya in Bachelor of Science in Architecture in 2000 and worked for two years in MATA Architect. She obtained her second degree from University of Malaya in 2005 and then worked as a graduate architect with DDA Architect in collaboration with RAM Architect. In the firms, she was involved in various type of projects including housing (Guthrie, PKNS, private housing, etc), commercials (PKNS, private commercials, private hospitals, etc), and institutions (marine TLDM, Sepanggar, Bukhary Institute, etc).

She then joined Kuala Lumpur City Hall (KLCH), where she was involved in urban planning and development process including developing KL Local Plan 2020, Urban Design Guidelines, Heritage Guidelines and special urban area plan. She also participated in KLCH owned project including Pustaka Peringatan-KL Arch, DBKL-PAM Jalan Tangsi Building, pedestrian bridges 4 phases, Taman Tasik Ampang Hilir, initial stage of River of Life development, heritage trails, and etc. Apart from that, she was also a committee member for the One Stop Center (OSC), urban design panel, heritage team and building inspec-

tion team. She was registered as a Professional Architect with Lembaga Arkitek Malaysia (LAM) in 2012, after passing her Part 3 Examination in 2011. Currently, she is the Principal of Aznida Architect and the Associate Director of MYA Architect doing projects such as rest and service area (RSA), public housing, mix-development, institutions, offices, private housing, and warehouses.

Besides teaching, she was also the member of the UPM Teaching Hospital Task Force Team (2014) and involved in the initial part of planning and zoning layout prior to building plan submission and construction up to detail design development. She is also involved in several projects in UPM such as upgrading of radiology room, Faculty of Medicine and Pusat Jualan UPM. Aznida is passionate in the area of project management and professional practice, urban design and heritage, architectural design and practice, and architectural education. She is keen to apply her practice knowledge into the architecture education and design enhancement. She believes that collaboration between practice and education will nurture outstanding and pragmatic design among students.
