**Ar. Mohd Azli** is a Professional Architect registered with the Board of Architect Malaysia and holds a Bachelor Sc. Architecture from the Universiti Teknologi Mara. He has particular interest in Practice and Management in relation to the Professional Architect. Since 2010, Azli has been involved in sharing the knowledge of getting and preparing future architects to become Professional Architect by guiding and sharing knowledge in BE:Ar class held in JKR Malaysia and private training centres. He created together with the BE:Ar committee the syllabus, conducted mock-up oral and mock-up written exam.

Mohd Azli is also the trainer for CIDB Architectural Site Supervisor module. The module was created to train the participant to become a certified Architectural Site Supervisor. Based on his real experience handling project on site and as

a Professional Architect, he shares the knowledge on ACT and regulation as a guide and reference for the candidates to supervise the projects successfully.

Mohd Azli has also been invited as an expert reference for Architectural supervision on site at various government agencies such as Jabatan Kerja Raya Malaysia, Ministry of Health Malaysia, and IKRAM. He is also active in Board of Architect Malaysia (LAM) as a committee in the working group for Inspector of Works and also at Pertubuhan Arkitek Malaysia (PAM) as the speaker for Professional Practice module. Overall, he enjoys sharing his experience and knowledge to the society for a better future of the Malaysian Architect society.
