

Emran @ Zahrin Mohamad Taram

Qualification:

Master of Science (Landscape Studies), Universiti Putra Malaysia
Bachelor in Horticulture Science, Universiti Putra Malaysia
Diploma in Agriculture, Universiti Pertanian Malaysia

Working Experience:

Faculty of Design and Architecture, Universiti Putra Malaysia

Field of Specialization:

Landscape Management and Maintenance, Plant Sciences, Computer Application in Landscape Management

Research Areas of Interest:

Tree Architecture and Biomechanics for Soil Stabilization, Urban Agriculture & Permaculture System for Sustainable Landscape Management

+603 8946 4027 / +6017 282 1328

Department of Landscape Architecture, Faculty of Design and Architecture, UPM

Mr. Emran @ Zahrin Bin Mohamad Taram received his Diploma in Agriculture from Universiti Pertanian Malaysia in 1994, Bachelor of Horticulture Science in 1998 and Master of Science (Landscape Studies) in 2001 from Universiti Putra Malaysia.

He is currently a Lecturer at the Department of Landscape Architecture, Faculty of Design and Architecture, Universiti Putra Malaysia. He joined the Department of Landscape Architecture, as a Computer Demonstrator and Research Assistant in 1998, a Tutor in 1999, and appointed as a lecturer in 2008.

Emran's areas of specialization are plant sciences, plant biomechanics, park management and maintenance, landscape operation and implementation and computer graphic for landscape design. His current research interests include the use of plants for slope stabilization, urban plant architecture and rooting

system, urban agriculture and the use of permaculture design system for sustainable landscape management.

Emran is a certified member of Rakan Pembimbing Perkhidmatan Awam Malaysia (AKRAB) under the Section of Psychology, Department of Public Service Malaysia and a Certified Autodesk AutoCAD Associate Trainer. He is the alumni of Permaculture Design Course (PDC) which is accredited by the Permaculture Institute of Australia and a member of Parks and Landscape Plants Research Group (PLPRG), Faculty of Design and Architecture, Universiti Putra Malaysia.

He has undertaken several plants and landscape consultancy projects at national level, and published more than 10 academic research papers in various publications. He has also been appointed as an academic paper reviewer and editor for a number of books and journals.
