

Mohd Fabian Hasna

Mohd Fabian Hasna received his Bachelor of Landscape Architecture degree from the Universiti Putra Malaysia (UPM), in 2006. He obtained his MSc. in Landscape Studies from the same university in 2012. In 2008, he joined Universiti Putra Malaysia as a Tutor at the Department of Landscape Architecture. He has taught various courses which include Basic Landscape Architecture Design Studio, Computer Graphic and Landscape Ecology. He has a long-standing interest in the importance of integrating public art in the landscape design. He focuses on issues that impeded public art as part of the design element in Malaysian landscape design. Currently, his interest is to explore the connection between public art and restorative environments (an environment that is able to recuperate mental fatigue and reducing stress), particularly in an urban environment.

Mohd Fabian is the main author of "Towards integrating public art in Malaysian urban landscape" published in *Pertanika J. Soc. Sci. & Hum* (2012). He co-authored a book entitled "Melaka: Sketching Through Experience". For a number of years, he participated in landscape design exhibitions such as the Royal FLORIA Putrajaya Flower and Garden Festival, Malaysia. In exploring the public art, he was a part of the UPM's team to exhibit an installation artwork entitled "Inner-Scape for the Bicara Sifu" exhibition in 2011, at Galeri Petronas, Kuala Lumpur, Malaysia.

Qualification :

Master of Science (Landscape Studies),
Universiti Putra Malaysia
Bachelor of Landscape Architecture,
Universiti Putra Malaysia

Working Experience :

Faculty of Design and Architecture, UPM
Sime Darby Plantation Sdn Bhd
Mines Resort Berhad
Wholistic Landscape Architecture Sdn. Bhd.

Field of Specialisation :

Landscape architecture, Public art &
Restorative environments

Research Areas of Interest :

Public art studies, Restorative environments &
Landscape design

Contact No :

+603 8946 4092
