**Dr. Faziawati Abdul Aziz** received her Diploma in Architecture from the Universiti Teknologi Malaysia in 1999, and a Bachelor in Landscape Architecture with Honours from Universiti Teknologi MARA in 2003. She then obtained a Master Degree in Urban Design from Leeds Metropolitan University and a PhD in APL (Architecture, Planning and Landscape) from Newcastle University, United Kingdom.

She is currently is a Senior Lecturer at the Department of Landscape Architecture, Faculty of Design and Architecture, Universiti Putra Malaysia since 2012. She joined the Department of Landscape Architecture as a Contract Lecturer in 2005 and then as a Tutor in 2008 before pursuing her PhD. Previously, Faziawati worked as an Architectural Technician at Frid Akitek in 1998 and later as a Landscape Designer at Morphosis Design until 2000.

Faziawati's areas of specialization include Urban Design, Landscape Architecture and Slum Relocation. Her research focuses on the implications

of relocating former squatters' dwellers into low-cost high-rise flats with a particular interest in community livelihoods, resilience and adaptability. On top of that, she is notably interested in issues related to Urban design and it is a subject that she teaches mainly in her department.

She is a member of the Urban Design Research Group, Faculty of Design and Architecture, UPM, which is currently working on to establish the Master in Tropical Urban Design Programme. She has presented her works at numerous international conferences and has been awarded the 1st Runner-up Best Paper Award at the 2nd ABRA International Conference on Quality of Life in Izmir, Turkey. She was the editorial member for Alam Cipta : International Journal of Sustainable Tropical Design Research and Practice from 2012 to 2015. She was also the co-chairman and co-editor for the International Conference on Sustainable Tropical Environmental Design (SusTED) from 2013 to 2015. She has recently published a book 'Malacca Sketching through Experience' with her fellow colleagues.
